

Registration Information

Registration includes a continental breakfast, buffet lunch and a USB memory stick containing all of the available handouts.

Early Registration Cost: \$50

Early registration deadline is January 22, 2016

Late Registration Cost: \$60

Late registration starts January 23, 2016.

Registration closes January 31, 2016.

No walk-ins permitted. Sorry but no refunds will be given for this conference. We have to pay for your food whether you show up or not. If you are unable to attend after registering, we will mail your USB memory stick containing the handouts to you after the conference.

How to Register

Online (preferred method)

- Fast & easy.
- Pay with your credit card.
- Receive an emailed confirmation that you are registered for the conference.
- Go to <https://regonline.com/swfruitvegconf>

By Mail

- Go to <http://go.osu.edu/swohfvsc>
- Print off a registration form.
- Make your check payable to **OSU Extension**.
- Mail your registration and check to:

**Ohio State University Extension
Warren County**
320 E. Silver Street
Lebanon, OH 45036

No confirmation will be sent to you, if you register by mail. Contact the Warren County Extension office if you have questions about your registration.

Private Pesticide Applicator Credits

Licensed Ohio pesticide applicators with a private license can obtain recertification credits during this conference. Every three years, applicators must obtain at least 3 hours of training with at least one hour of Core and at least 30 minutes of training for each additional category on their license. Licensed applicators can receive training throughout the three years of the cycle, as long as they meet the total training requirements before their license expires.

Bring your license to the conference. Ohio State University Extension will be set-up to check your recertification status and can let you know how much training you still need to recertify your pesticide applicator license.

New Fertilizer Application Regulations

Fertilizer certification is required if you apply fertilizer to more than 50 acres of agricultural production grown primarily for sale. Your fertilizer certificate must be obtained by September 30, 2017. This conference will include a 3 hour fertilizer training which will meet the requirements to obtain your fertilizer certification. Participants must attend the entire 3 hour class.
